Simple Staff Paging

This portable, wireless transmitter notifies staff with the touch of a button.

Efficient Staff Paging Solution

The T9560EZ transmitter is a simple, affordable component of a complete LRS staff paging solution. Used by restaurant kitchens to notify wait staff when food is ready, the T9560EZ helps speed up food delivery by instantly paging servers. With the touch of a button, servers are silently notified when food is ready to be delivered, thus enhancing the guest experience.

ADDITIONAL BENEFITS:

· **Works with all LRS Pagers**

· **Easy to use with one-touch paging for up to 20 servers**

· **Ideal for smaller restaurants**

· **Rechargeable**

Enhance Customer Experience
Staff paging speeds up food delivery and gives guests an overall better experience. Food is delivered faster and fresh.

Increase Staff Productivity
Give staff the tools they need to be more efficient and productive with their time. Staff is able to serve customers better, knowing they will be notified when orders are ready for delivery.

Boost Revenue
Turn tables fasters with staff messaging. Serve guests quickly and give guests the service they expect.

HOW IT WORKS

1 Assign
Provide a wireless LRS pager for your to servers to wear and assign each pager a number between 1-20 on the T9560EZ, and write the name next to each number on the built-in dry-erase board.

2 Notify
Kitchen staff pushes the corresponding server number on the T9560EZ when their order is ready.

3 Serve
Servers receive a silent message to retrieve their order, so they can deliver food faster to guests.
