

**Table Tracker**<sup>®</sup>  
DELIVER FOOD FASTER

## Grow your business with Table Tracker

Table Tracker is a table location system that identifies where guests are sitting so you can deliver food faster, create a better guest experience and operate more efficiently.

[TABLE-TRACKER.COM](http://TABLE-TRACKER.COM)

# Business Benefits

## Faster Food Delivery

Provide the experience customers demand. Faster food delivery means warmer food and worry-free guests.

## Enhanced Productivity

Give your employees the tools they need to succeed. Be smarter about staffing and scheduling.

## Analytics & Reporting

Measure delivery times to identify opportunities to improve your operation and performance.

# What's Included

## Trackers

Broadcast the location of guests for table delivery. Page when to-go orders are ready.

## Gateway

Wirelessly connect Trackers to the full Table Tracker system.

## Tablet App

Display order status, identify guest location, and page guests waiting for to-go orders.

## Tags

Be invisible with under-the-table tagging, or use above-the-table options either indoor or outdoor.

## Online Reporting Portal

Access reports for single or multiple locations to view historical and comparative performance metrics.

## Table Tracker API

API access to integrate with an existing solution or to access data directly.

# Here's How it Works

## 1. Order

A Tracker is given to customers when they order.

## 2. Locate

The Tracker reads tags on the customer's table and broadcasts its location.

## 3. Deliver

Food runners reference the Order View to identify a guest's location and deliver food.

## 4. Analyze

Managers can use Table Tracker app or LRS Connect to view performance reports.

# Service & Support

Our team of experts is here from installation to operational support making sure you get the most out of your system.

## Hands-Off Maintenance

Tags with no batteries and long-lasting trackers create a low life-time cost. Over time, maintenance costs of other solutions add-up to big bucks – making LRS a smarter, more stable, and economical choice in the long-run.

## Warranty

Our warranty covers all Table Tracker hardware, with options to extend it up to three years. Covered equipment includes Trackers, Gateways, and Repeaters.

## Implementation and Support

Table Tracker customers receive expert support. Our staff is by your side from implementation to operational support – we've got your back.

## Table Tracker is Trusted and Preferred

### Operate More Efficiently

*"We shaved a full minute off delivery times."*

Michael Johnson | Regional Manager | Jason's Deli

### Deliver Better, Faster Service

*"My staff loves it...my food runners don't waste time circling the restaurant looking for customers. Table Tracker tells you where to go like a beam of light."*

Johnny Carrabba | Owner & Founder | Carrabba's and Mia's

### Elevate your Guest Experience

*"[Table Tracker] absolutely allowed us to provide a better dining experience."*

John Secretan | Owner | Zinc Cafe

### Manage Smartly with Insight

*"Management loves [Table Tracker] because it gives them visibility they didn't have before."*

Cody Pierce | VP Marketing | Pizza Ranch

## SIMPLE SOLUTIONS THAT STREAMLINE COMMUNICATIONS BETWEEN GUEST AND STAFF

Our solutions help simplify operations so you can focus on what really matters – the guest. Bring peace of mind to your organization with LRS on-site communications, guest management applications, tracking systems, and customer surveys.
